

VESELÁ TRIČKA

DOMINO

The game is suitable for the development of vocabulary knowledge.

The game can be played with a T-shirt in two ways.

1: One player writes a word on one T-shirt, e.g. TEREZA. The second player continues with his T-shirt with a word starting with A, e.g. ANNA. A player is out if he/she is not able to write the next word. The winner is the one who compiles most linked words.

2: The players put all letters in front of them. There are two or more lines of Velcro on the T-shirts. Players try to locate – within the shortest possible time – words that are linked in each line (as described above), i.e.: “TEREZA → ANNA → APPLE.” The winner is the one who compiles the most linked words on his/her T-shirt.
